2.1 Policy development and review

Eton Bridge Partners' policies are established by our leadership team based on advice from HR professionals, industry best practice and legal advisors. We review our policies on a regular basis or as needed to adapt to required changes.

3 Our Processes for Managing Risk

In order to assess the risk of modern slavery, we use the following processes with our suppliers:

- When engaging with suppliers, we ask for evidence of their processes and policies, including commitments around modern slavery, human trafficking, forced labour, human rights, and whistle-blowing.
- We review the potential for risk at regular intervals, including the possibility of auditing a supplier or conducting spot checks.

After due consideration, we have not identified any significant risks of modern slavery, forced labour, or human trafficking in our supply chain. However, we continue to be alert to the potential for problems.

Additionally, we have taken the following steps to minimise the possibility of any problems:

- We reserve the right to conduct spot-checks of the businesses who supply us, in order to investigate any complaints.
- We require the businesses we work with to address modern slavery concerns in their policies.
- We collaborate with our suppliers in order to improve standards and transparency across our supply chain.
- Only senior members of staff who have undergone appropriate training for assessing modern slavery risks in the supply chain are authorised to sign contracts and establish commercial relationships in any area where we have identified the potential for risk.

Our staff are encouraged to bring any concerns they have to the attention of management.

4 Our Performance

Based on the potential risks we have identified, we have established the following key performance indicators, which are regularly assessed by our board of directors:

- the percentage of suppliers who sign up to an appropriate code / provide their own modern slavery statements
- the effectiveness of enforcement against suppliers who breach policies
- the amount of time spent on audits, re-audits, spot checks, and related due diligence
